

Instruction for the Preparation of Manuscripts for the Proceedings

Dear Speaker:

We are planning to publish the Proceedings of our Symposium in “RIMS Kôkyûroku” series. Announcement papers, résumés of previously published articles, and survey articles, as well as original papers, may be accepted. We also welcome articles which are scientifically meaningful but not suited for publication in ordinary journals because of its style; examples of such articles include articles which present seminal ideas, propose open problems, report failed attempts, explain the philosophy or experimental data that underlie one’s theory, or discuss the prospects of one’s theory. Thus almost no stylistic restriction is imposed, but your contribution should be in final form; “RIMS Kôkyûroku” series is not a preprint archive.

The manuscript (PDF format) should be uploaded to the RIMS Kôkyûroku Submission Form.

And check the print version. Please contact the Editor after confirmation.

Since the printing is done by photocopying process, please observe the following rules for preparation:

- | | |
|-----------------------------|--|
| 1) <u>Color</u> | Black letters on white papers |
| 2) <u>Size of the paper</u> | Approximately 29.5cm × 21cm |
| 3) <u>Margins</u> | 2.5cm on both sides
3cm on the top and the bottom |
| 4) <u>Length</u> | Please ask the Editor. |

*RIMS will issue the Proceedings in “RIMS Kôkyûroku” and publish them at Kyoto University Research Information Repository and RIMS Homepage, except for the articles whose authors do not wish their manuscripts to be published online. If that is the case for your article, please report it to the Editor at the time of submission.

Yours sincerely,

Title of the manuscript

Aoi Kyoto
